| Use                             | Rate                             | Critical Comments   |
|---------------------------------|----------------------------------|---|
| Starter                         | 1.5 to 5 L/ha                    | May be mixed with liquid fertilisers or pesticides. If mixing, perform a jar test to assure compatibility. Mixing in the following order is recommended: fertilisers, chemicals, waters, then BASIS. Liquid fertilisers in the pH range 5 to 9 are compatible with BASIS.   |
| Side Dress                      | 2.5 to 5 L/ha                    |   |
| Broadcast, Ag                   | 5 to 10 L/ha                     |   |
| Broadcast, turfgrass            | 100 to 200 mL/100 m <sup>2</sup> |   |
| Broadcast, ornamental           | 5 to 10 L/ha                     |   |
| Impregnation on Dry Fertilisers | up to 4 L/tonne                  | Rate will vary depending on makeup of dry fertiliser blend. Blends that contain both potassium and phosphate inputs will absorb more BASIS than those made from a higher percentage of urea. Higher rates of impregnation are possible when fertiliser handling systems are capable of adding drying clay. Contact your Landmark representative for specific information. |

### FIRST AID

**If in Eyes:** Flush with clean running water for at least 15 minutes. If irritation persists, get medical attention.

**If on Skin:** Remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists, or if rash develops, get medical attention.

**If Swallowed:** If conscious, drink 1 or 2 glasses of water. Get medical attention. Never induce vomiting or give anything by mouth to an unconscious person.

**If Inhaled:** Remove to fresh air. If irritation persists, get medical attention.

### STORAGE and DISPOSAL

**STORAGE:** Store product in dark fiberglass or plastic containers out of direct sunlight or UV light. Keep containers tightly closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products, and seed. PROTECT FROM FREEZING. Do not contaminate water, food, or feed by storage or disposal.

**DISPOSAL:** Do not reuse container. Completely empty container into application equipment. Thoroughly rinse container, adding rinse water to the spray tank.

**HANDLING:** Avoid breathing fertiliser mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

Any provisions or rights (under the Competition and Consumer Act 2010 and/or relevant state legislation) which cannot be excluded by those statutes or by law are not intended to be excluded by these Conditions of Sale. Subject to the foregoing, all warranties, conditions, rights and remedies (expressed or implied under common law, statute, or otherwise) in relation to the sale, supply, use and/or application of this product are excluded.

This product must be used strictly as directed and in accordance with all instructions appearing on the label and other reference material. To the extent allowed by statute, Loveland Products, Inc. and/or its affiliates shall not accept any liability whatsoever (including consequential loss), howsoever arising (including negligence), for any damage, injury or death connected with the sale, supply, use and/or application of this product.
