

# TERRAMAR™

## 0-0-3.32

**GUARANTEED ANALYSIS**

Potassium.....3.32%

Derived From: potassium acetate and seaweed extract (Ascophyllum nodosum)

**ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:**

**Active Ingredients:**

Organic Matter from Leonardite.....3.00%

Inert As Non Plant Food Ingredients.....97.00%

**TERRAMAR™ is a highly soluble blend of biologically extracted kelp and organic compounds. Increases plants tolerance to environmental stress.**

**DIRECTIONS FOR USE**

TERRAMAR dilutes in water and is suitable for use in liquid foliar, soil applied, and irrigation water applications, including Calcium Ammonium Nitrate and Calcium Thiosulfate solutions. Regular applications are important for maximizing crop potential during unexpected stress. Apply as needed based on soil tests or according to recommendations in your nutrient management plan. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to the intended application site, and sweep any product that lands on impervious surfaces (the driveway, sidewalk or street) back on to the intended application site.

**FOLIAR APPLICATIONS**

Fill half the spray tank with water, begin agitating and add recommended amount of TERRAMAR with remainder of water and spray solution. A minimum spray volume of 30L/ha is recommended. Use a surfactant for maximum dispersal and leaf adherence.

**SOIL APPLICATIONS**

Soil-applied treatments can be made by mixing with soil applied nutritional products, through directed sprays to the soil, sidedress treatments, applications through the irrigation systems or any other methods which effectively apply TERRAMAR to the soil. TERRAMAR can be applied through drip, microjet, sprinkle, overhead, in-furrow, flood and other types of irrigation at the suggested rates.

APPLICATION RATES AND GENERAL RECOMMENDATIONS		
Crop	Rate/Hectare	Application
Root And Tuber Vegetables	2-5L/ha	Soil or Foliar application through appropriate application method. Will benefit from multiple applications of Terramar per crop. Consult your Agronomist for application timings.
Leafy Vegetables		
Brassica Vegetable		
Vegetables		
Fruiting Vegetables		
Cucurbits		
Berries		
Fruit Crops		
Tree Nuts		
Cereal Grains and Pulse Crops		
Pasture & Fodder Crops	1.0%-3.0% v/v	Through appropriate application method.
Cotton		
Corn for grain and Silage		
Non Crop	Rate/Acre	Application
Hydroponic Systems	2-10L/ha	Soil or Foliar application through appropriate application method.
Turf and Ornamental		

**COMPATIBILITY**

TERRAMAR™ is compatible with most insecticides, fungicides and fertilizers. Some pH adjustments may be required with acidic mixtures. Add surfactants after the product has completely dissolved in the tank solution. If interaction of chemicals is unknown, a “jar” compatibility test is recommended.

**STORAGE AND DISPOSAL**

Store in the closed, original container in cool, dry, well-ventilated area away from direct sunlight or high temperatures. Store away from children, animals, food, feedstuffs, seed and fertilisers. Do not contaminate water, food or feed by storage or disposal. Protect from freezing. Keep containers tightly closed when not in use. This container can be recycled if it is clean, dry, free of visible residues and has the *drumMUSTER* logo visible. Triple-rinse container for disposal. Dispose of rinsate by adding it to the spray tank. Do not dispose of undiluted chemical on site. Wash outside of the container and the cap. Store cleaned container in a sheltered place with cap removed. It will then be acceptable for recycling at any *drumMUSTER* collection or similar container management program site. The cap should not be replaced, but may be taken separately. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

**Refillable Containers:** Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

**WARNING:** May cause eye irritation, redness and tearing. Skin contact may cause mild irritation. Inhalation of mist may cause respiratory irritation. May cause gastrointestinal irritation, nausea, diarrhoea and vomiting.

**FIRST AID**

IF IN EYES: Rinse eyes immediately with water. Remove contact lenses, if present and easy to do, then continue rinsing. Seek medical attention if symptoms occur or you feel unwell.  
 IF SWALLOWED: Rinse mouth. Do not induce vomiting unless instructed by a medical professional. Seek medical attention if symptoms occur or you feel unwell.  
 IF INHALED: Move person to fresh air and keep comfortable for breathing. Seek medical attention if symptoms occur or you feel unwell.  
 IF ON SKIN: Wash off with soap and water. Seek medical attention if symptoms occur or you feel unwell.

**SAFETY DATA SHEET**

For further information, refer to the Safety Data Sheet which is available from the supplier.

**CONDITIONS OF SALE:** This product should only be used in accordance with the label and manufacturer’s instructions. Product performance may be affected by factors which are beyond the control of Loveland Agri Products Pty Ltd and its Associates (as that term is defined in the Corporations Act 2001 Cth) (Associates). In no case shall Loveland Agri Products Pty Ltd or its Associates be liable for consequential, incidental, special or exemplary damages or losses.

All sales (wholesale and retail) are governed by the General Terms and Conditions of Sale available at [lovelandagriproducts.com.au](http://lovelandagriproducts.com.au) or from your retailer upon request. These terms can only be varied by Loveland Agri Products Pty Ltd.

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.
